KPL 10% BSA Diluent/Blocking Solution Kit

PART Code 5140-0006 (50-61-00)
Lot No. 10350875
SIZE 2 X 100 mL

DESCRIPTION The KPL 10% BSA Diluent/Blocking Solution has two functions. As a blocking solution, it binds to any remaining protein binding sites after the primary antigen or antibody is bound to the solid phase. As a diluent for antigens, antibodies, and labeled antibodies, it ensures minimal non-specific interaction of these reagents with each other and with the solid phase surface.

FORM/STORAGE Liquid. Store refrigerated at 2 – 8°C.

CONTENT 2 X 100 mL, KPL 10% BSA Diluent/Blocking Solution, 5140-0007 (50-61-01)
Lot No. 10329380 Date of Manufacture: 05 MAR 2018
The KPL 10% BSA Diluent/Blocking Solution contains 10% Bovine Serum Albumin (BSA) in a phosphate buffer.

STABILITY This product is stable for one year from date of receipt when stored properly. If crystals appear upon refrigeration, warm the bottle to 37°C with mixing to dissolve.

Approval:

A handwritten signature in black ink, appearing to read "D. Kelly".
