

Certificate of Analysis

KPL Milk Diluent/Blocking Solution Concentrate

PART Code 5140-0011 (50-82-01)
Lot No. 10410597
SIZE 2 X 100 mL

DESCRIPTION The KPL Milk Diluent/Blocking Solution Concentrate has two functions. As a blocking solution, it binds to any remaining protein binding sites after the primary antigen or antibody is bound to the solid phase. As a diluent for antigens, antibodies, and labeled antibodies, it ensures minimal non-specific interaction of these reagents with each other and with the solid phase surface.

FORM/STORAGE Liquid. Store refrigerated at 2 – 8°C.

CONTENT Supplied in 100 mL bottles, KPL Milk Diluent/Blocking Solution Concentrate Lot No. 10355215. The KPL Milk Diluent/Blocking Solution Concentrate contains 2% non-fat dry milk in a borate buffer.

STABILITY This product is stable for one year from date of receipt when stored properly.

DATE OF MANUFACTURE Bulk material manufactured on 28 JUN 2018.

Approval:

A handwritten signature in black ink, appearing to read "D. Kelly".
