KPL TrueBlue™ Peroxidase Substrate

PART Code	5510-0030 (50-78-02)
Lot No.	10633235
SIZE	2 x 100 mL

- **DESCRIPTION** KPL TrueBlue[™] Peroxidase Substrate is a one component, precipitating substrate optimized for use with cellular preparations. KPL TrueBlue[™] deposits a brilliant blue immunoprecipitate in the presence of horseradish peroxidase-labeled reporter reagents. KPL TrueBlue[™] can be used for membrane-based immunoblotting, but it is not appropriate for use in microwell ELISA or other applications requiring a soluble reaction product.
- **FORM/STORAGE** Liquid. Store at room temperature.
- **CONTENT** KPL TrueBlue[™] is a buffered solution containing 3,3',5,5'-tetramethylbenzidine and H₂O₂. Supplied as 100 mL bottles: **Lot No. 10623164**, manufactured on **02 JUN 2022**
- **STABILITY** The substrate is stable for up to 30 months from the date of manufacture when stored properly. Optimal performance in plaque assays will occur within 1 year from date of manufacture. The substrate will appear clear to light blue after extended storage. The product's stability and performance are not affected by variations in solution color.
