

CERTIFICATE OF ANALYSIS

TrueBlue™ Peroxidase Substrate

CATALOG NO. 71-00-64
LOT NO. 10231835
SIZE 50 mL

DESCRIPTION TrueBlue Peroxidase Substrate is a one component precipitating substrate optimized for use with cellular preparations. TrueBlue deposits a brilliant blue immunoprecipitate in the presence of horseradish peroxidases labeled reporter reagents. TrueBlue can be used for membrane-based immunoblotting, but is not appropriate for use in microwell ELISA or other applications requiring a soluble reaction product.

FORM/STORAGE Liquid. Store at room temperature (22 – 28°C).

CONTENT TrueBlue is a buffered solution containing 3,3',5,5'-tetramethyl-benzidine and H₂O₂ supplied in 50 mL bottles, lot no. 10214475.

STABILITY The substrate is stable for up to 30 months from the date of manufacture when stored properly. The substrate will appear clear to light blue after extended storage. The products stability and performance are not affected by variations in solution color.

**DATE OF
MANUFACTURE** 07/27/2016

Quality Assurance Verified and Approved:

A handwritten signature in black ink, appearing to read 'P. Reel', is written over a white background within a rectangular box.
