

CERTIFICATE OF ANALYSIS

HisDetector™ Nickel-HRP

CATALOG NO. 24-01-01
LOT NO. 10189798
SIZE 0.1 mL

DESCRIPTION HisDetector™ Nickel-HRP is a horseradish peroxidase (HRP) labeled nickel conjugate for use in detecting recombinant proteins containing a polyhistidine (his) sequence. Nickel binds to the histidine sequence with great affinity and can be used for detecting his-tagged proteins in ELISA or Western blotting.

HisDetector™ Nickel-HRP is tested by Western blot analysis and demonstrates detection levels of at least 2 nanograms of his-tagged protein with a colorimetric detection system.

FORM/STORAGE Liquid form. Store at -20 °C.

CONTENT This product contains the following component:

1 x 0.1 mL HisDetector™ Nickel-HRP, Catalog No. 24-01-02
Lot No. 10181056, Date of Manufacture: 31 MAR 2016

EXPIRATION DATE 21 MAR 2019

Quality Assurance Verified and Approved:

A handwritten signature in blue ink, appearing to read 'Kimmy M...', is written over the signature line of the quality assurance box.

Date: 19 APR 2018
