

# ACCURUN<sup>®</sup> Anti-SARS-CoV-2 Reference Material Kit

ENSURE ANTIBODY TESTING ACCURACY AND PERFORMANCE

## ABOUT SERACARE

TRUSTED SUPPLIER TO DIAGNOSTIC MANUFACTURERS' AND CLINICAL LABS FOR OVER 30 YEARS

HIGH-QUALITY CONTROL PRODUCTS, RAW BIOLOGICAL MATERIALS, AND IMMUNOASSAY REAGENTS

INNOVATIVE TOOLS AND TECHNOLOGIES TO PROVIDE ASSURANCE IN DIAGNOSTIC ASSAY PERFORMANCE AND TEST RESULTS

FOR MORE INFORMATION, PLEASE VISIT OUR WEBSITE: [WWW.SERACARE.COM](http://WWW.SERACARE.COM)

ACCURUN<sup>®</sup> Anti-SARS-CoV-2 Reference Material Kit offers positive materials for antibodies to the SARS-CoV-2 virus. Also included are complementary negative materials. The kit is designed to support assay installation and monitoring of day-to-day assay performance, providing a complete quality solution for SARS-CoV-2 antibody testing.

To support the many SARS-CoV-2 serology assay formats available, the kit is currently offered in two configurations, one designed for IgG-specific assays and the other for total antibody tests. Series 1000 is released using the Abbott ARCHITECT SARS-CoV-2 IgG assay, and Series 2000 is released using the Roche cobas<sup>®</sup> Elecsys<sup>®</sup> Anti-SARS-CoV-2 assay. Reference materials are specifically formulated to exhibit low positive reactivity in true patient-like matrices, to test assay performance near critical signal cutoff boundaries.

Product Description	Series	Material Number	Pack Size	Antibody Coverage	Release Testing
ACCURUN Anti-SARS-CoV-2 Reference Material Kit	1000	2015-0222	Positive 2 x 3 mL	IgG	Abbott ARCHITECT
	2000	2015-0225	Negative 2 x 3 mL	Total	Roche cobas <sup>®</sup>

*Not for In Vitro Diagnostic Use. Research Use Only.*

### SARS-CoV-2 Serology Solution:

- **Patient-like Matrices:** Formulated from true human-sourced disease material to mimic patient samples encountered in a daily testing environment
- **Relevant Target Ranges:** Specifically designed to be weakly reactive, low positive reference materials to challenge assay performance
- **Ease of Use:** Liquid-ready format, requiring no reconstitution
- **Long Shelf Life:** 2 year stability at 2 - 8°C
- **Open Vial Stability:** Once opened, stable for 30 days

## LEARN MORE

To learn more about ACCURUN SARS-CoV-2 Reference Materials and our complete line of SARS-CoV-2 Quality Solutions visit: [www.seracare.com/SARSCoV2](http://www.seracare.com/SARSCoV2) or contact customer service at 800.676.1881.

## ORDERING INFORMATION

To place an order, please contact us at +1.508.244.6400 and 800.676.1881 or email [customerservice@seracare.com](mailto:customerservice@seracare.com).
